

The 11th Arabic and Mediterranean Film Festival of Catalonia

7-12 November 2017

Filmoteca de Catalunya

Eleven years trying to fill a vacuum in the Catalan cultural scene, by giving voice to Arab and Mediterranean cinema in Catalonia. We are convinced that cinema can, among other things, help us understand the world we live in, and also encourage a critical spirit. This critical thinking that is so necessary for us to advance in a world in convulsion, complex and full of challenges. A world in full transformation that now more than ever needs the empathy and solidarity among all the human beings that live in it.

We will also recover the element of the guest country, and we do so by opening the doors to the cinema of Iraq. In the Mostra of 2017, therefore, we will give a special place to films from this country.
